

INSTITUTE
FOR RESEARCH
IN BIOMEDICINE

OPEN POSITION AT IRB BARCELONA 2 RESEARCH ASSISTANT BIOINFORMATICS (LAB/10/01)

The Institute for Research in Biomedicine (IRB Barcelona) is an independent, non-profit research institution engaged in basic and applied biomedical science. It is located in the Barcelona Science Park (Parc Científic de Barcelona, PCB), a centre in which first-class public research converges with the private sector in a stimulating, vanguard scientific environment. IRB Barcelona was founded in October 2005 by the Government of Catalonia (Generalitat de Catalunya), the University of Barcelona (UB) and the Barcelona Science Park and is administrated through a private foundation. The Institute currently has 470 members (scientific, technical and administrative staff) and plans to grow significantly in the coming years.

The Molecular Modelling and Bioinformatics Group is seeking two Research Assistants in Bioinformatics:

DUTIES

- Development of software and computer infrastructure to integrate in workflows to support high-throughput calculations for the Spanish Bioinformatics community with special emphasis in:
 - structural bioinformatics or
 - structural analysis of genomes
- The hired person should perform also specific support to external and internal research projects.

CANDIDATE PROFILE

- Engineering in Computer Sciences, Master or Bachelor degree in Bioinformatics or a related discipline.
- Strong programming skills.
- Experience in computational biology will be valued.
- Enthusiastic about participating in cutting-edge inter-disciplinary research and being exposed to a continuous learning environment.
- Good English.

The person hired will be a member of the Bioinformatics Platform of the Instituto de Salud Carlos III.

HOW TO APPLY

Please, send a brief letter describing your interest in the position, a complete CV by email to: irbjobs@irbbarcelona.org
